Return Policy

Demo company knowledge document for the RAG customer-support chatbot.

1. Return Window

Eligible products may be returned within 10 calendar days from the date of delivery unless a different period is explicitly shown on the product page.

The return window is calculated from the recorded delivery date, not the date on which the order was placed.

2. Product Condition

Returned products must be unused and in acceptable original condition. Tags, accessories, manuals, and original packaging should be included where applicable.

Items showing signs of use, washing, alteration, intentional damage, or missing essential accessories may fail the return inspection.

3. Non-Returnable Items

Certain products such as personalized items, hygiene-sensitive products, and products explicitly marked as non-returnable may not be eligible for return.

The product page and order details should be checked for product-specific return restrictions.

4. Return Process

Customers can request a return from the Orders section. After the request is submitted, ShopSphere may perform an eligibility review.

For approved requests, a pickup may be scheduled. In selected locations or cases, customers may be given a self-shipping option.

5. Refund After Return

A refund is processed after the returned product passes the required inspection. The applicable payment and refund policy determines the processing timeline and final amount.

Customers should keep the pickup receipt or shipping receipt until the return has been completed.

6. Wrong, Damaged, or Missing Item

Customers should report a wrong, damaged, or missing item as soon as possible. Photographs or other evidence may be requested during verification.

Approved cases may qualify for a replacement, exchange, or refund depending on product availability and the applicable policy.
